Greetings Town Council and Mayor!

While in the planning I am using my voice to object to the proposed new position of Emergency Services Program Coordinator.

All of you are my friends. Of course we won't agree on everything. Thank for all your hard and time consuming work that you do for our community.

I knew the consequences before we moved here of living in a rural, " remote " town. I am ok with not making to the ER on time to survive, or if my house burns down so it goes.

It is the quality of life while it last.

We kept hearing "keep Bluff Bluff" while we were incorporating. Don't want to Moab Bluff. If you build it they will come.

Once again thanks for new things like the town burn, that is helpful to our community, thank you volunteers!

Keep doing good things, all of you are appreciated for stepping up and serving our community.

With Gratitude, Joyce
